REMO

Online interviews simplified

The Team

KHS Supriya

B.Tech CSE, 2nd Year
VNR VJIET College of Engineering, Hyderabad

Mansi Sharma

B.Tech CSE, 2nd Year
Indira Gandhi Delhi Technical University for Women , Delhi

Namya LG

B.E CSE, 2nd Year
RV College of Engineering, Bangalore

Need of the Hour

COVID-19 has affected the entire world.
Online interviews are the only option for recruiters to hire talent.

Been there before?

01

Are you tired of sharing your screen everytime you write or explain your code?

02

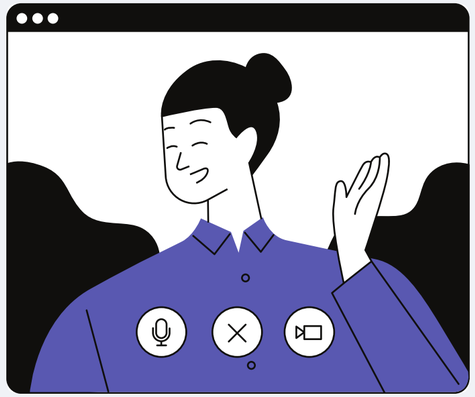
Do you use a third party to write code, save it on the cloud and share that link with the person who wants to review it?

03

Hate opening mutliple tabs to go through the candidate's github profile?

REMO = Interview From Home

What an interview needs?



Audio-video interface

Social profiles and resume

Chat

Real-time whiteboard

Virtual environment

Why REMO is different?

01

Domain-specific virtual environment

02

No invasion of privacy

03

Invigilation

04

Access to candidate's profiles

05

Independent of geographical location

06

Made in India

How about a DEMO for REMO ?

Check out the prototype here !
