The Equation

$$REMO = IFH$$

What an interview needs?

What an interview needs?

What an interview needs?

What an interview needs?

What an interview needs?

What an interview needs?

Let's have a Demo for

Technology Stack

- HTML, CSS
- Bootstrap
- Particle JS
- Javascript

- WebRTC API
- GitHub API
- Node JS
- Socket IO
- Nuvepro CloudLabs API

- Python
- Firebase
- GCP
- Heroku

Challenges

- Integrating Node JS framework with our website
- Lost track of work on Gitlab
- Connecting the pre-interview and interview room
- Calling the API's and having a running server to setup the virtual environment
